# Inside UNINJET

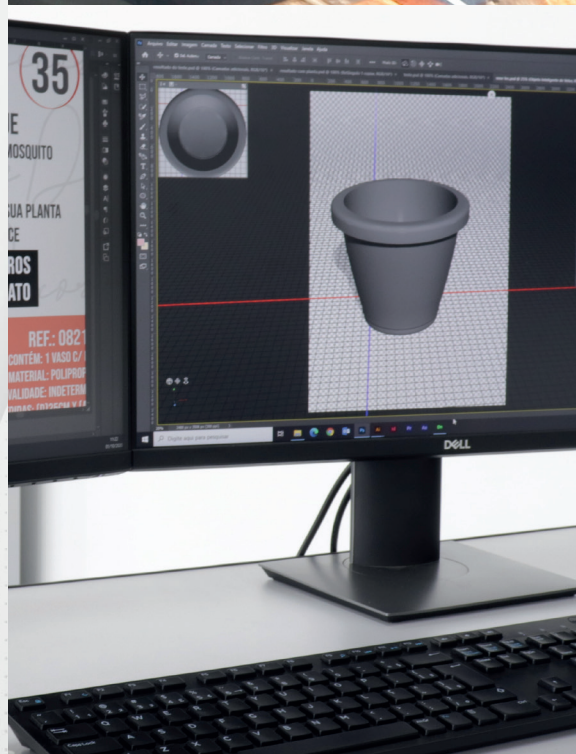

Uninjet is part of a group of companies with over 37 years of tradition, specializing in the manufacture of molds and the injection of plastic parts.

Throughout its history, the brand has been building a story based on innovation, practicality, and quality, providing solutions that transform the world of household appliances and facilitate the daily lives of Brazilian homes, always with solidity and commitment.

In just 16 years of operation, Uninjet has consolidated a reputation for excellence and exponential growth, competing on equal terms with major brands in the market. This result is the fruit of constant and continuous investments in technology, with modern, updated equipment subjected to rigorous periodic maintenance.

In addition to technology, Uninjet invests heavily in its main pillar: people. The company values professional qualification, human development, and the well-being of its employees, understanding that they are responsible for transforming ideas into quality products.

To learn more about this story, access the institutional video via the QR Code and follow Uninjet on our social media.
